

## Global Benchtop Oven

### Pre-heating ovens with electrical aluminium heating platens

The Global Benchtop ovens are a smart pre-heating solution developed with the most suitable heating technology for a tension free and flawless heating process of acrylic Solid Surface materials (Corian®, HI-MACS®, Krypton®, PLEXIGLAS® Mineral), and is also ideally suited for preheating thermoplastics (ABS, Acrylic Glass, Kydex, etc.) and similar composite materials. The technology consists of direct contact heating from electrical aluminium heating platen that guarantee a gentle and homogeneous heat distribution throughout the entire thickness and surface of the material.

### Product information

- ▶ Electrical aluminium platen oven
- ▶ Suitable for Solid Surface materials, thermoplastics and similar composite materials
- ▶ Working temperature max. 200 °C
- ▶ Max. 30 mm material thickness
- ▶ User-friendly working height, 1 m
- ▶ Average energy use 1 to 2 kW/h
- ▶ Single or double sided heating platen
- ▶ Digital adjustable temperature control unit
- ▶ Preheating timer with light and sound indicator
- ▶ Manual opening and closing
- ▶ Mounted on industrial feet
- ▶ Electrical connection 380 V / 50 Hz / 3~

Model	GBO-P-1509	GBO-I-1509
Total heating platen	1490 x 900 mm	1490 x 900 mm
Usable heating surface	1390 x 800 mm	1450 x 850 mm
Heating platen	One-sided	Double-sided
Max. temperature	200 °C	200 °C
Electrical connection	380 V / 50 Hz / 3~	380 V / 50 Hz / 3~
Electrical consumption	4.9 kW	9.8 kW
Overall dimension	160 x 110 x 170 cm	165 x 110 x 170 cm

#### Conditions

Delivery time:	6 Weeks
Shipping:	EXW. 46113 Moncada (Valencia), Spain
Price:	All prices in Euro and excluding VAT, insurance, packaging and assembly
Payment:	30 % in advance, 70% before delivery
Warranty:	2 Years under normal use, except on membranes, vacuum bags and HPL pressboards

Prices and technical characteristics reserved to change without notice. Images may differ from original.
