

Global Bag Press Industrial

Vacuum pump + vacuum bag

Global bag press systems have been around for a long time and have proven very successful for veneering, laminating and bending of all kinds of wood, even the most complicated shapes. Thanks to the easy handling, fast operational readiness and versatility, Global bag presses have become indispensable. Simplicity of design with only one shaft and direct drive produces robust, long-lasting vacuum pumps with low maintenance and running costs. These pumps operate completely oil-free and the compact cover ensures low noise and heat emission.

Global provides a range of different vacuum-bag-press-sets and accessories that enable each end-user to choose a solution that best suits their needs.

Product information

- ▶ Rugged and reliable rotary vane vacuum pump, operate completely oil-free and maintenance-free
- ▶ Max. vacuum pressure 8.5 t/m²
- ▶ Continuous and Automatic operating mode with vacuum pressure adjustment
- ▶ Vacuum bag with 2 air suction point
- ▶ PU elongation 600 %
- ▶ Including flexible C-channel closure 3x C-channels and 2x tubes
- ▶ European standard plug 220 V/50 Hz/1~
- ▶ Vacuum pump with 16/19 m³/h at 50/60 Hz
- ▶ Power consumption 0,55/0,77 kW at 50/60 Hz
- ▶ Polyurethane (PU) vacuum bag
- ▶ PU thickness 0.75 mm
- ▶ Heat resistant up to 100 °C
- ▶ Including 3 m Springvin® spiral hose
- ▶ Optionally available: 2- and 4-port manifolds to connect several bags

Code	Total bag dimension	Effective press area	Max. pressing height	Vacuum pump
GVP160-PU2516	290 x 160 cm	250 x 160 cm	Max. pressing height	16 m ³ /h
GVP160-PU3116	350 x 160 cm	310 x 160 cm	depends on the physical size	16 m ³ /h
GVP160-PU3716	410 x 160 cm	370 x 160 cm	of the component.	16 m ³ /h

Conditions

Delivery time: 2 Weeks
 Shipping: Ex Works 46113 Moncada, Spain
 Warranty: 2 Years under normal use, except on membranes, vacuum bags and HPL pressboards
 Technical characteristics reserved to change without notice.
